This year again we also enjoyed significant corporate support that is detailed below. In addition there was a large donation from AIP through SPS. Also, Thorlabs sent wonderful snack boxes that were enjoyed in the break between sessions. Several acknowledgement posters were prominently displayed at all Symposium events (copy attached).

The entire Symposium was organized and arranged by Prof. Harold Metcalf of Stony Brook University. I benefited from several people from OSA. We anticipate that the Symposium will be repeated at FiO/LS in Rochester next October, and information can be had from the DLS leadership, and at the DLS website http://www.aps.org/units/dls/.
